What's Michael? 2
Synopsis: Michael the orange tiger cat returns for another series of vignettes. The sketches this time include a three-part send-up of The Fugitive, the famous 1960's TV show. Richard Kimble is now a veterinarian on the lam (lamb?), running from a false conviction for a murder committed by "a man with overbite." Despite the omnipresent danger, he must stoop and intervene whenever he sees a cat (always Michael) suffering; after treating the patient, he plays a trick on the cat and runs away. (He's a fugitive, after all.) Another sketch draws parallels between wandering husbands and wandering house cats, who seem to have similar proclivities. Two more point out what happens when a cat's instincts run up against the requirements of baseball or pro wrestling. (Source: Orphan Fansubs)

Tobacco to Hai
Synopsis: In the summer of 2000 in Hollywood, Spielberg’s Dreamworks Film Corp. made the
film "Chicken Run" with Nick Park, the great master of clay-figure animation, and it beca
me a big hit. A chicken was the main character, and the story unfolded like the masterpie
ce "The Great Escape." Thirty-five years ago, Mushi Production created an animated work i
n which a chicken was the main character and a rebellion between the rulers and the ruled
 eventually escalated into a great war. Despite the scale of the story, the film ran for
only three minutes. The ability to depict the endless repetition of war in human history
in just three minutes is a unique feature of short animation, relying on exaggeration and
 great imagination. (Source: en.tezuka.co.jp)

Anime Koukyoushi: Jungle Taitei
Synopsis: Actually, that 1991 date is misleading. The Symphonic Poem originated with the music Isao Tomita wrote for Jungle Emperor in 1965. He re-worked his music into a long fo rm which tells a story by itself. (This form of music was termed "symphonic poem" or "ton e poem" by composers in the late Romantic era.) So music that was written originally to e nhance visual story telling became the story teller. Tomita’s symphonic poem was recorded in the mid-60s and issued on LP in Japan. More than once, in fact. It has also been on C D more than once. In 1991, Tezuka Productions turned the process upside down and created new animation to illustrate the symphonic poem. The story is basically that of the first Kimba episode. We see the peaceful animal kingdom under Panja, the coming of the hunters, Eliza’s capture and Panja’s death. Kimba is born and escapes back to Africa. All this to ld without a single word spoken. The style of the Symphonic Poem’s animation is unique. I t draws heavily on the style of the 1989 TV series, but Kimba looks different from the wa y he looked in any other production. (Source: kimbawlion.com)

Sakura-sou no Pet na Kanojo (The Pet Girl of Sakurasou)
Synopsis: At Suimei High, the Sakura-sou dormitory is infamous for housing the school’s most notorious delinquents. Thus, when the relatively tame Sorata Kanda is transferred to the dorm, escaping this insane asylum becomes his foremost goal. Trapped there for the time being, he must learn how to deal with his fellow residents, including bubbly animator Misaki Kamiigusa, charming playboy writer Jin Mitaka, and the ever-reclusive Ryuunosuke Akasaka. Surrounded by weirdness, Sorata frequently finds respite in his interactions with his one "normal" friend, aspiring voice actress Nanami Aoyama. When Mashiro Shiinaâ\200\224a new foreign exchange studentâ\200\224joins the dormitory, Sorata is instantly enraptured by her beauty. Underneath her otherworldly appearance, Mashiro is an autistic savant, capable of world-renowned brilliance in her art, yet unable to perform simple daily tasks. After Sorata ends up in charge of taking care of Mashiro, the two inevitably grow closer, with Sorata’s initial desire to escape the dormitory becoming a forgotten goal. Despite their eccentricities, every resident is incredible in their own field, leaving Sorata to contend with his own lack of any particular skill. With brilliance all around him, he thus strives to become an equal to their talent. Revolving around the hardships and joys of its colorful cast, Sakura-sou no Pet na Kanojo is a heartwarming coming-of-age tale of friendship, love, ambition, and heartbreakâ\200\224through the lens of an ordinary person surrounded by the extraordinary. Miho Nishizumi, who comes from a lineage of well-respected senshadou specialists, is at odds with the sport after a traumatic event led to her retirement and eventually a rift to form between her and her family. To steer clear of the practice as much as possible, she transfers to Ooarai Girls Academy where the senshadou program has been abolished. However, with the news of the upcoming championships, the school revives their tankery program, and Miho is pushed into joining. Now, with the aid of some new friends, she must overcome her past and once again take command of a squadron of tanks in an effort to save her school from closure, all while proving to her family that the Nishizumi-style of senshadou is not solely about victory. Sasami-san@Ganbaranai
Synopsis: The Japanese call them hikikomoriâ\200\224people who've become so withdrawn socially that they refuse to leave their homes for weeks and even months at a time. For Sasami Tsukuyomi, who's attempting to pass her first year of high school despite being a shut in, it's more than just a word. Fortunately though, she lives with her older brother Kamiomi, who just happens to be a teacher at the school Sasami is supposed to attend. Not to mention, her "Brother Surveillance Tool" which lets her view the outside world via her computer and will, theoretically, allow her to readjust to interfacing with people again. What it mainly does, however, is let her view her brother's interactions with the three very odd Yagami sisters, who inexplicably seem to have had their ages reversed and have various types of "interest" in Kamiomi. And then things start to get really weird... Magical powers? Everything turning into chocolate? Is life via the web warping Sasami's brain, or is it the universe that's going crazy? However, the Demon Queen rebuts, arguing that the war has not only united humanity but has also brought them wealth and prosperity, providing evidence to support her claims. Furthermore, she explains that if the war were to end, the supplies sent by the Central Nations in aid to the Southern Nations would cease, leaving hundreds of thousands to starve. Fortunately, she offers the Hero a way to end the war while bringing hope not only to the Southern Nations, but also to the rest of the world, though she will need his assistance to make this a reality. Finally convinced, the Hero agrees to join his now former enemy in her quest. Vowing to stay together through sickness and health, they set off for the human world. [Written by MAL Rewrite]

Yuki no Taiyou Pilot
Synopsis: This pilot is remembered, really, for one notable reason: this is Miyazaki’s fi
rst time as a solo director. He teamed up with Takahata for the later episodes of the 197
1-72 Lupin III series, but Yuki’s Sun marked his first time solely in the captain’s seat.
 Yuki’s Sun was based upon a popular shoujo manga (girls’ comic) by Tetsuya Chiba which w
as serialized in 1963. It involves a 10-year-old orphan girl who is adopted into a family
. The storyline is somewhat complex, and seems to play out like grand melodrama. Chiba’s
stories were more sophisticated and grown-up than, say, Osamu Tezuka, who of course was t
he godfather of postwar Japanese manga. (Source: TheGhibliBlog)

Choujigen Game Neptune The Animation (Hyperdimension Neptunia)
Synopsis: After years of fruitless war between the four realms of Gamindustri (Planeptune, Lastation, Lowee and Leanbox) over Share energy, the source of their strength based on how much their people have faith in their goddesses, the four CPUs that rule over them have finally signed a friendship treaty. The treaty bans any attempt at claiming Share energy through military force, in hopes of bringing peace and prosperity to their worlds. Yet, a month after the treaty, Neptune, the CPU Goddess of Planeptune, spends her time goofing off and playing games rather than doing her job, leaving her land’s Shares plummeting. Choujigen Game Neptune The Animation follows Neptune and her friends’ attempts at raising Shares, while dealing with an external threat that could spell the end of both the Goddesses and Gamindustri itself...

Suki tte Ii na yo. Dareka ga (Say "I Love You." OVA)
Synopsis: Mei, Aiko, Asami, and Nagi are making cookies at Mei’s house. Knowing that the process could take a while, Nagi chases Yamato out of the house. He receives a text from Kai, who asks him if he wants to meet up at the park. When Yamato arrives, it is revealed that the rundown park was where the two of them first talked and bonded for the first time. After bantering a bit, Kai asks Yamato why he, who had always seemed to be having fun with a large crowd around him, was always the first one at the park after school. Yamato admits that he used to feel like he was a chameleon; someone who didn’t have his own personality and just changed himself to please others. Kai tells Yamato that he used to hate the town, but thanks to Yamato, he now finds it to be beautiful. Kai reassures him that he is his own person, and Yamato confesses that after he met Mei, he realized just how lonely he was. Kai later runs into Megumi at the bus stop. They start talking, and Kai tells her that he thinks she’s cool for staying true to herself while modelling. Megumi snaps back at him, and Kai, offended, leaves. When Momo comes, Megumi regrets lashing out on Kai and later becomes embarrassed when Momo suggests that Megumi likes him. At Mei’s house, the cookies are done and turn out to be delicious. Mei’s mom shoos Mei and Yamato out of the house. Yamato hugs Mei and tells her he’s glad she’s with him. They watch the sunset together before continuing their walk, holding hands. Wake Up, Girls!
Synopsis: The gateway to Idol stardom might have opened for the newly formed singing group Wake Up, Girls, but the path to fame is full of perils and pitfalls. And for Mayu, Airi, Minami, Yoshino, Nanami, Kaya and Miyu, it's going to be especially difficult knowing who to trust, as their manager Matsuda's lack of experience could give other, less scrupulous, individuals a chance to take advantage. That's a situation that quickly comes to a head when Green Leaves' president suddenly disappears with most of the money, and things only get worse when the replacement producer seems more interested in getting the girls into revealing swimsuits than promoting their music. As malicious gossip begins to surface regarding Mayu's past membership in a rival group, and internal tensions begin to tear the team apart, they'll need more than just ambition to survive. Singing may be a business, but friendship and a love of music is what will keep everything together. (Source: Sentai Filmworks)

Chiisana Love Letter: Mariko to Nemunoki no Kodomo-tachi
Synopsis: A follow-up to the same studio's Helen Keller anime, A Little Love Letter kept the handicapped theme but focused on a wholly Japanese story. During the 1970s, actress Mariko Miyagi became heavily involved in the Silk Tree Academy (Nemunoki Gakuen), a rehabilitation center for disabled children. She appeared in several live-action films to promote the project, including The Silk Tree Ballad, Mariko-Mother, and Children Drawing Rainbows. This anime charts the 14-year period of Miyagi's stewardship of the academy and her relationships with several of the children. Divided into four seasonal chapters, the film uses highly realistic character designs based on the actual people involved and features storyboarding from the versatile Star Blazers-director Noboru Ishiguro. New Initial D Movie: Legend 1 - Kakusei
Synopsis: One foggy morning, a black and white Toyota AE86 flies past Keisuke Takahashi’s Mazda RX7 on Mount Akina, making him believe he has seen the ghost of a racer who died on the mountain. Resolving to defeat this phantom, Keisuke mobilizes the Akagi Red Suns to take on the local Akina Speed Stars racing team in an exchange race. He anticipates that the competition will lure the elusive "Ghost of Akina" out into the open and give him the opportunity to exact revenge for his previous defeat. While his friend Itsuki Takeuchi is obsessed with cars and racing, Takumi Fujiwara is not. He fails to understand the "rush" that racers experience and any talk of cars reminds him of the tofu deliveries he makes for his father in an old AE86. His early morning routine takes him up and down Mount Akina, where he has memorized every hairpin, brake point, and turn better than anyone else. When the Akagi team appears one night to challenge the Speed Stars to an exchange race, they accept the challenge only to find out that they are completely outclassed. The only way the Speed Stars can stand a chance against them is if they can get the panda-colored AE86 to join their team. With a bit of coercion, Takumi takes the wheel of the AE86 and heads off to Mount Akina to defend the pride of all racers in Akina. [Written by MAL Rewrite]

Akuma Tou no Prince: Mitsume ga Tooru
Synopsis: The popular Manga "The Three-Eyed Boy Comes Here" was produced as the eighth in an animated series for a special 24-hour broadcast. This time, the movie was produced by Toei Animation Co., Ltd. instead of by Tezuka Productions Co., Ltd. Here, Tezuka Osamu was in charge of only the original story and a synopsis for animation. Based on the original Manga, "Easter Island: Sea voyage," Sharaku and Wato investigate a mysterious old ship, only to find themselves getting involved in a sea voyage around strange islands. More emphasis was placed on entertainment factors than on theme, and this change in the concept line resulted in the withdrawal of Tezuka Productions Co., Ltd. from this series. Tobidase! Machine Hiryuu
Synopsis: The bosses of rival car companies decide to fight each other in the sporting ar
ena by backing different race car teams. Chairman Gapporin hires Okkanabichi the supreme
racer, while Chairman Misaki hires Riki Kazama, a relatively untried driver for the flyin
g car known as Machine Hiryu. Mixing elements of Speed Racer with Time Bokan, this Tatsun
oko production ticks the same boxes, with Riki’s cute girlfriend Nana, mini-mechanic Chut
a, the cute ape and pooch, and the comic and glamorous villains lurking in the background
. Early work from many big names, including Yoshitaka Amano and Kunio Okawara, is strictl
y in the studio mould. Manga versions of the story ran in several magazines, such as Tere
bi Magazine and Terebi Land. Racing fever seemed to have struck the Japanese animation bu

Hoozuki no Reitetsu (Hozuki's Coolheadedness)
Synopsis: Hell is a bureaucracy, and business is running smoother than ever thanks to the demonic efficiency of Hoozuki, chief deputy to Lord Enma, the King of Hell. Whether offering counsel to the Momotarou of Japanese folklore or receiving diplomatic missions from the Judeo-Christian Hell, the demon who runs the show from behind the king's imposing shadow is ready to beat down any challenges coming his way into a bloody pulp. Metaphorically, of course... The poster boy for micromanagement and armed with negotiation skills worthy of Wall Street, Hoozuki no Reitetsu follows the sadistic and level-headed Hoozuki as he spends his days troubleshooting hell. With an abundance of familiar faces from popular Japanese legends and East Asian mythology working middle management positions, this referential and anachronistic dark comedy brings new meaning to the phrase "employer liability." Just how hard could it be to manage employees from hell, anyway? [Written by MAL Rewrite]

Just as things seem to be looking grim for the god, his fortune changes when a middle school girl, Hiyori Iki, supposedly saves Yato from a car accident, taking the hit for him. Remarkably, she survives, but the event has caused her soul to become loose and hence able to leave her body. Hiyori demands that Yato return her to normal, but upon learning that he needs a new partner to do so, reluctantly agrees to help him find one. And with Hiyori’s help, Yato’s luck may finally be turning around. [Written by MAL Rewrite]

Mahouka Koukou no Rettousei (The Irregular at Magic High School)
Synopsis: In the dawn of the 21st century, magic, long thought to be folklore and fairy tales, has become a systematized technology and is taught as a technical skill. In First High School, the institution for magicians, students are segregated into two groups based on their entrance exam scores: "Blooms," those who receive high scores, are assigned to the First Course, while "Weeds" are reserve students assigned to the Second Course. Mahouka Koukou no Rettousei follows the siblings, Tatsuya and Miyuki Shiba, who are enrolled in First High School. Upon taking the exam, the prodigious Miyuki is placed in the First Course, while Tatsuya is relegated to the Second Course. Though his practical test scores and status as a "Weed" show him to be magically inept, he possesses extraordinary technical knowledge, physical combat capabilities, and unique magic techniquesâ\200\224making Tatsuya the irregular at a magical high school. Unfortunately, Japan doe sn't allow anything other than that group's Heaven's Songs, for writing or performing dif ferent types of music is forbidden and can lead to harsh consequences. Agitated by these strict rules and brainwashing, Ryouma does everything he can to show people that the musi c he loves will bring them the freedom they deserve. Along with his bandmates Shinsaku Ta kasugi and Kogoru Katsura, Ryouma works hard to find places for his rock 'n' roll group t o perform. Refusing to back down until their music is accepted in Japan, the trio begin t o realize that there's more to their passion than they had thought. [Written by MAL Rewri te]

Kangaeru Renshuu (Imagination Practice)
Synopsis: The description of Suwami Nogami's minimalistic line drawing piece, Imagination Practice, calls it an unending "thought loop". It depicts an artist sitting in front of a window with a self-portrait, like a miniature mirror image, on the desk in front of him. The window frame and the blue sky filled with moving clouds are in colour, but the figure of the artist is not coloured in. The soundtrack sounds like a skipping record that is punctuated by humourous springing noises (a la Bugs Bunny) as the image 'bounces' in an unending loop from the establishing shot into the "drawing." A philosophical piece, Imagination Practice considers the circular dialogue between an artist and his work. (Source: Midnight Eye)

Usagi ga Kowai (U-SA-GUI)
Synopsis: Tetsuji Kurashige's nightmarish U-SA-GUI (2002) begins by citing a section from Brillat-Savarin's 1825 treatise, The Physiology of Taste, in which the renowned French epicure suggests that stimulating foods, meats in particular, can have an influence on one's dreams. The film depicts a macabre game played by two rabbits and a blindfolded woman. The rabbits face each other over an old-fashioned illustrated board game. When they land on a square, the woman must eat the food indicated in the illustration. If she has chosen correctly, a die pops out of her mouth and lands on the floor giving the rabbits their next move. (Source: Midnight Eye)

Kaidan
Synopsis: Iki mixes old and new technologies to create a film that evokes both the sights and sounds (hum of cicadas) of a hot Japanese summer. Black and white photographs of a Shinto shrine, summer landscape and an old Japanese-style house provide the backdrop and CGI technology adds the visual interest in the form of an unusual little girl and her ghostly frog companion. The ghost in this story is more a curiosity than something scary, and the use of a fish-eye lens and other distortions suggest both the sweltering humidity of summer and also imply that the frog is an imaginary creation of the young protagonist. Sarusuberi: Miss Hokusai (Miss Hokusai)
Synopsis: The time: 1814. The place: Edo, now known as Tokyo. One of the highest populate
d cities in the world, teeming with peasants, samurai, townsmen, merchants, nobles, artis
ts, courtesans, and perhaps even supernatural things. A much accomplished artist of his t
ime and now in his mid-fifties, Tetsuzo can boast clients from all over Japan, and tirele
ssly works in the garbage-loaded chaos of his house-atelier. He spends his days creating
astounding pieces of art, from a giant-size Bodhidharma portrayed on a 180 square meter-w
ide sheet of paper, to a pair of sparrows painted on a tiny rice grain. Short-tempered, u
tterly sarcastic, with no passion for sake or money, he would charge a fortune for any jo
b he is not really interested in. Third of Tetsuzo’s four daughters and born out of his s
econd marriage, outspoken 23-year-old O-Ei has inherited her father’s talent and stubborn

ness, and very often she would paint instead of him, though uncredited. Her art is so pow
erful that sometimes leads to trouble. "We’re father and daughter; with two brushes and f
our chopsticks, I guess we can always manage, in a way or another." Decades later, Europe
was going to discover the immense talent of Tetsuzo. He was to become best known by one
of his many names: Katsushika Hokusai. He would mesmerize Renoir and van Gogh, Monet and
Klimt. However, very few today are even aware of the woman who assisted him all his life,
and greatly contributed to his art while remaining uncredited. This is the untold story
of O-Ei, Master Hokusai’s daughter: a lively portrayal of a free-spirited woman overshado
wed by her larger-than-life father, unfolding through the changing seasons. (Source: Prod

Mushishi Zoku Shou: Odoro no Michi (Mushi-shi Path of Thorns)
Synopsis: Mysterious, unknowable creatures alien to the laws of natureâ\200\224known only to some and feared by othersâ\200\224"Mushi" lie behind many of life’s strange phenomena. Long ago, a Mushi of terrifying power threatened to extinguish all life. The Minai clan of Mushishi were born from those who stopped this malevolent force, their members bound by duty to serve as retainers to the Karibusa family, within whom the Mushi remains sealed. The Mushishi Ginko is given a job request from Tanyuu Karibusa: oversee the work of the head of the Minai clan, Kumado Minai, in investigating an abandoned village where dead wood and even houses spring back to life as flourishing plants. Though the Minai clan are oddly ruthless among Mushishi, even more peculiar is their widespread dull character, with little appreciation for beauty or sentiment. Tanyuu believes there is more to this trend than meets the eye. Ginko aims to answer her curiosity as he follows Kumado into a "Path of Thorns," a place where Mushi flow from their own strange sources into the world of the living. Rare and deadly varieties of Mushi lurk in these depths, along with the secret nature of the Minai clan’s resolve to their ancient task. [Written by MAL Rewrite]

Synopsis: Humanity finds itself in a struggle when the sea level begins to rise to an unprecedented level in the year 2039. To make matters worse, powerful enemies resembling old wartime vessels called the Fleet of Fog roam the waters, severing communication and transit to various regions. Any attempt at retaliation ends in failure with humanity's current weaponry. Only Gunzou Chihaya stands a chance against the Fleet of Fog as captain of the friendly Fog I-401 submarine Iona. As a result, Gunzou and his crew, known as Blue Steel, are tasked with a critical delivery mission by the Japanese government: they must deliver humanity's last hope against the Fleet of Fog, the Vibration Torpedo Warhead, through hostile waters to the United States for mass production. Though involved in the unsavory conflict, Blue Steel strives for nothing more than a peaceful resolution to it. As Iona undertakes the current mission and tasks beyond it, the crew upholds their values even in the face of harsh situations. [Written by MAL Rewrite]

Hyakubanme no Saru
Synopsis: Based on the 1981 book of the same name by new age guru Ken Keyes, Jr., which i n turn is based on the story of a 1952 experiment on the southern Japanese island of Koji ma. (Please note that the "Hundredth monkey effect" is discredited in the scientific comm unity.) Once one monkey has learned how to wash its food, it is able to teach others the same skill. When a certain number have learned (and Keyes suggests an arbitrary figure of 100), not only do the remaining monkeys suddenly appear to know how to do it, but so too does a completely different group of apes on a completely separate island. Keyes uses th is apocryphal tale as a parable for the antinuclear movement, as "proof' that change woul d come if enough people joined forces. (Source: The Anime Encyclopedia)
